Room block available until August 23rd at <https://www.omnihotels.com/hotels/washington-dc-shoreham/meetings/oiuf-crash-course-room-block-09132019> or by calling 1-800-THE OMNI (843-6664) and asking for the "OIUF Crash Course" room block.

About OIUF

The Ocular Immunology and Uveitis Foundation (OIUF) is a national non-profit organization, based at the Massachusetts Eye Research and Surgery Institution in Waltham, Massachusetts at 1440 Main Street. OIUF is the nation's leading non-profit health organization dedicated to finding the causes and cure for ocular inflammatory and surface diseases and is the only national organization exclusively serving individuals, families and friends affected by such disorders.

In addition to Research, our services include:

- ◆ 6 support group meetings at the Massachusetts Eye Research and Surgery Institution
- ◆ Online Support for patients, kids, and families
- ◆ Pathfinders Program (patient to patient support)
- ◆ Ocular Inflammatory Disease educational guides and documentaries
- ◆ Fellowship training
- ◆ Physician Education and Patient Conferences
- ◆ Publications (Text Books, Articles, Monographs)

There is never any charge, ever, for participation in our support resources or for our publications. **We are committed to keeping these resources, programs, and publications free of charge and accessible to anyone living with ocular inflammatory disease.** Therefore, we depend heavily on your generous support. Please show your support through one of our sponsorship opportunities.

Mission

The Ocular Immunology and Uveitis Foundation is a 501(c)(3), national non-profit, tax-exempt organization. Our mission is to find cures for ocular inflammatory diseases, to erase the worldwide deficit of properly trained ocular immunologists, and to provide education and emotional support for those patients afflicted with ocular inflammatory disease.

C. Stephen Foster, MD, FACS, FACR
Program Director

The 2019 Ocular Inflammatory Disease Crash Course is intended for ophthalmologists, pediatricians, rheumatologists, patients and caregivers involved in the care of individuals with uveitis and ocular inflammatory diseases.

There is an immediate need to support physicians, patients and caregivers to discuss the scientific and social aspects of ocular inflammatory disease.

The primary aim of the course is to highlight how specialists in the field recognize and manage various prominent forms of preventable blindness and provide a venue for discussion of these diseases to help their peers incorporate these medical methods into their individual practices. Prevention of complications from disease has become the focus of modern medicine, and leads to better outcomes in patients, especially in ophthalmology.

Many ocular diseases eventually lead to blindness, but some vision loss can be avoided by timely presentation to and management by a well-trained physician/ophthalmologist and informed patient and or caregiver, Awareness and recognition of these diseases when they present, as well as the implementation of early steps in treatment or prompt referral, is critical to minimizing or preventing permanent blindness.

LEARNING OBJECTIVES

- Participants will be able to assess various forms of ocular inflammatory disease, including ocular cicatricial pemphigoid, scleritis, infectious uveitis, anterior uveitis and drug induced uveitis.
- Participants will be able to consider approaches to the work up of Uveitis, including imaging tools that make a difference in ocular inflammatory disease.
- Participants will be able to take early action in management upon recognition of these diseases to help avoid permanent complications caused by delay in treatment.
- Understand imaging technologies and their uses
- Identify preferred practice patterns for monitoring and treating ocular inflammatory diseases.
- Understand emerging therapies for these diseases and how to navigate insurance.

2019 Ocular Inflammatory Disease Crash Course

Saturday, September 14, 2019

Omni Shoreham Hotel • Washington, D.C.

8:00 – 9:00 AM Breakfast and Registration

PRIMER SESSION

9:00 – 9:20 AM	Approach to the Work Up of Uveitis	Alla Hynes, MD
9:20 – 9:40 AM	Primer on Steroid Sparing Therapy	C. Stephen Foster, MD
9:40 – 10:00 AM	Ocular Immunology	C. Stephen Foster, MD
10:00 – 10:10 AM	Q& A	
10:10 – 10:30 AM	Break	

ANTERIOR SEGMENT OCULAR INFLAMMATORY DISEASE

10:30 – 11:00 AM	Ocular Cicatricial Pemphigoid and atopy	C. Stephen Foster, MD
11:00 – 11:20 AM	Scleritis Treatment and New Insights	David Chu, MD
11:20 – 11:40 AM	Anterior Uveitis Treatment Concerns and Implications	Stephen Anesi, MD
11:40 – 11:55 AM	SHARE Initiative and a Ten-Year Experience in Treatment of JIA-Associated Uveitis in Russia: Challenges and Opportunities to Pediatric Rheumatology	Vyacheslav Chasnyk, MD
11:55 – 12:15 PM	Uveitic Glacoma	Peter Netland, MD
12:15 – 12:30 PM	Q& A	
12:30 – 1:25 PM	Lunch	

THE NEW AND THE HOT

1:25 – 1:45PM	Infectious Uveitis and Emerging Pathogens	Alla Hynes, MD
1:45 – 2:05 PM	Systemic Disease with Ocular Manifestations	Nida Sen, MD
2:05 – 2:35 PM	Imaging Tools that Make a Difference in Ocular Inflammatory Disease	Peter Chang, MD
2:35 – 2:50 PM	Drug Induced Uveitis	Peter Chang, MD

PATIENT BREAK OUT SESSION
Coping with Uveitis 2:30-3:00pm

2:50 – 3:10 PM Break

NEW INSIGHTS ON OID TREATMENT AND ADVOCACY

3:10 – 3:40PM	Emerging Therapies for Uveitis and Ocular Inflammatory Disease	Rajiv Shah, MD
3:40 – 3:55PM	Navigating Insurance and Other Hurdles	Frances Foster, MS,NP
3:55 – 4:20PM	Self Advocacy: How to get the best medical care possible	Andrea Patisteas, Parent and Faculty
