Research from OIUF!

OIUF is continuously engaging in research efforts to advance the understanding of ocular inflammatory disease, find new cures and collaborate with others in the field!

[Click below to read more about current and recent clinical research for patients with Uveitis!](#)

[Learn More!](#)

OIUF's fellowship program is also continuing to produce research on various subtypes of OID to help educate researchers and physicians who are actively caring for patients with OID. These

articles allow for up to date treatment protocols to be distributed to those who need it the most!

Click below to read recent publications from our OIUF research fellows!

Updates on Treatment of Peripheral Ulcerative Keratitis

Successful Glaucoma Surgery in Patients with Ocular Cicatricial Pemphigoid

Treating Pars Planitis with Actemra

Biosimilars of Remicade in OID

Characterizing Flares in HLA-B27 Anterior Uveitis

June Support Group!

Ocular inflammatory diseases are rare and rely on ongoing research to come up with better treatments that lead to better outcomes on the pursuit of saving vision. Join us this month to discuss the various types of research that advance our understanding of OID and how patients can get involved too!

"Research Updates & Participating in Clinical Trials"

June 10th, 2025 @ 7:00 PM EST

Led By:

Frances Foster, MS, NP

OIUF Support Group Chair/Facilitator

Megan Mitchell & Yasmin Massoudi

OIUF Clinical Research Coordinators
