## Happy July from OIUF!

July is an exciting month for us as it marks the beginning of the academic year for our fellowship program! Teaching is in full swing with weekly lectures, lab meetings and of course, seeing patients in clinic on a daily basis!

## July Support Group **Rescheduled!**

Dry eye is a common condition that can affect anybody. However, it creates additional problems for patients with ocular inflammatory diseases that already makes them prone to irritation. Many things like excessive screen usage or air conditioning during the summer can trigger dry eye symptoms.

Join us this month to discuss dry eye and uveitis with Dr. Stephen Anesi, a practicing ocular immunologist, and guests from the Dry Eye Foundation!
